ideas for life

Relax, Rejuvenate, Invigorate

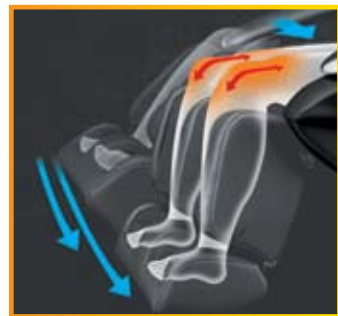

Increase Circulation, Relieve Tension and Increase Energy.

Arm & Palm Massage
Increase circulation and warmth, removes tension.

Shoulder Massage
Gently stimulates your lymphatic system to help cleanse the body.

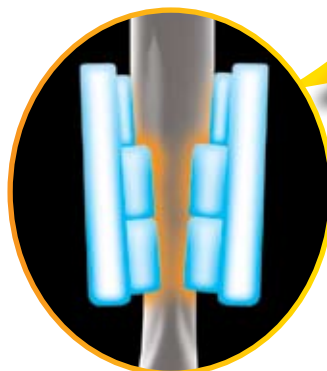

Leg Stretch
Works to alleviate stiffness in your lower back, hips and thighs. The air system in the ottoman squeezes the lower legs while it lowers and raises in 20° increments.

Arm & Shoulder Stretch
Gradual stretching of shoulder muscles to remove tension & increase flexibility.

Seat and Hip Massage
Gently squeezes and soothes buttocks, outer thighs and waist. Soft adjustable hip acupoint nodule.

Calf Massage
Gently squeezes and loosens tightness, increases circulation.

Advanced Quad-Style Massage Technology
Massage heads that open and close – these four massage styles can be chosen during a massage:

- Shiatsu
- Swedish
- Fist Kneading
- Grasping

More Massage Area: 200 sq. in.
Using pressure sensor technology, Ultra creates a virtual map of your back. Real Pro Ultra™ scans your body then delivers a massage contoured to your spine's curves. The "floating" massage heads glide over your back—Ultra knows where to massage, and where not to. You create your own customizable program, which Ultra remembers for the next time you're ready for a massage. The air bags conform to your body, and even the Air Ottoman System extends open/closed to accommodate any height.

The "Junetsu" Massage Technique

Junetsu, the Japanese word for "ultra fine kneading", is based on the one-second circular thumb movements of professional massage therapists. Junetsu quickly loosens up tight muscles, and the spiral circular motion reverberates down through muscles to invigorate down to your bones' surface.

A Panasonic Exclusive

"Junetsu" Ultra-Fine Kneading Penetrates Deeply and Quickly

Foot Massage with Reflexology

Reflexology

For professional, personalized massage therapy on your feet, the Real Pro Ultra™ utilizes adjustable and removable plates to incorporate reflexology into the massage experience. This reflexology stimulates additional massage points on your feet, increasing blood and energy flow throughout your body.

Acupoints

You have approximately 350 acupoints in your body, with nearly 100 in your back and neck. From the soothing palm style of Swedish massage, to deep tissue kneading, to Shiatsu massage, Ultra has a variety of techniques for invigorating energy acupoints.

Easy to Use Color Backlit Remote with Voice Guidance

170° Reclining—Massage then Rest

Flexible Ottoman Accommodates Height

Ultra's ottoman can be used closed or open, so no matter what your height, Ultra will find the correct fit for your body type.
