

in your dreams

7 here tension, pressure and the harshness of daily life do not exist. Close your eyes and $^\prime$ discover your own personal paradise. Unwind in the Panasonic Real Pro Elite $^{\scriptscriptstyle\mathsf{TM}}$ – an alternative to the regimen and the routine.

> As you lie back in the Real Pro Elite massage lounger, tranquility engulfs you from head to toe. A calmness takes over as it rolls down your back, through your thighs, into your calves, and down to your feet... feel it flow over your body, until every muscle is relaxed and you are completely entranced.

It's the massage lounger that will tempt your senses and titillate you to the very core. With its advanced motor, extended memory and sensor technology, the Real Pro Elite massage chair delivers an all-over body massage that's customized, precise and smooth. Submit yourself to the chair that gives you what your body craves – realistic massage motions, comprehensive personalization and total satisfaction.

Your Personal Massage

Whether you're tired from a long day at the office, sore from a hard workout or achy after extensive travel, the Real Pro Elite can give you a massage specific to your needs.

- Sensors for Back Scan ensure complete accuracy. Determines the length and curvature of your back, and locates your shoulder blades.
- Easy-to-use Remote with Voice Guide & LED Screen makes customizing your massage simple. Enjoy your favourite massage with the touch of a button.
- 18-Memory Capability store up to 6 programs for 3 users.
- Four 14-Minute Pre-Programs

Shiatsu – Firm style of massage that includes squeezing and finger pressure

Deep - Slow kneading will relax tight muscles

Swedish – A softer massage for a tired body

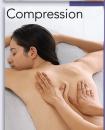

Stretch – General program that uses a variety of massage movements

- Quick Program incorporates most of the massage techniques in a wonderful 5-minute massage.
- Self-Program is a 14-minute program that spends more time on the muscles you indicate.
- Manual Mode is ideal when you want to select specific massage techniques and body parts.
- Intensity Controls allow you to make your massage experience even more customized. Strengthen the massage of your upper body, or turn the lower body massage off completely - the options are endless.
- Speed Controls allow you to slow down or speed up the massage head movement.

Benefits of Massage

Relaxes your entire body

Chiropractic Association (ACA), the largest professional association in the world representing doctors of chiropractic. Recognizing the many health benefits of regular massage, the ACA found that Panasonic massage chairs provide outstanding deep-tissue relief, which can temporarily relax tense muscles, offering an ideal complement to chiropractic manipulation.

* Panasonic Massage Chairs, both Real Pro and Swede-Atsu Series, are the first to be endorsed by the ACA. The distinction represents the first massage chair endorsement given by the ACA.

Full Body

A total of 39 air bags work together, pressing and squeezing tired muscles, to relax multiple parts of the lower body. As they simultaneously inflate and deflate in varying patterns and speeds, the tension in your seat, hips, thighs, calves, shins, arms and feet miraculously dissipates.

 Hips/Seat soothing squeezing for relaxation of muscles and increased circulation

■ Thighs
applies pressure to the muscles in the thighs, which relieves tightness and tension while increasing blood circulation

 Calves/Shins kneading and loosening of the shins and calf muscles

Feet upward pressure is applied for the ultimate relief

Arms

 air bag massage to hands,
 wrists and forearms

This incredible chair offers 11 massage techniques – select just one or try a combination for your own unique massage experience.

Swedish: Gentle pressure, using 4 rollers to simulate the palms.

Shiatsu: Strong deep-tissue pressure and stretching using two massage heads.

Kneading: A gentle in-and-out motion using 4 massage heads. This function is especially effective on your neck & shoulders. Try both kneading modes.

Rolling: Massage heads move up and down along the back to gently stretch the muscles. The heads will move in a 4-inch range in "Regional" and a 30-inch range in "Full".

Tapping: Invigorating sensation of hands rapidly tapping on your back muscles. Try both tapping modes for a different rhythm.

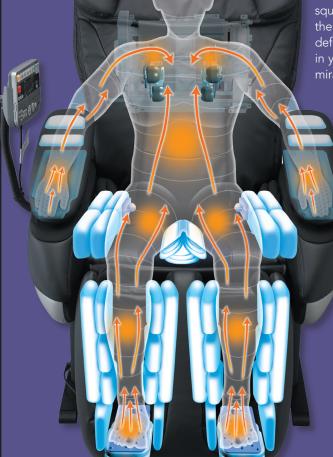

Compression: Firm rubbing motion across the back. Two modes are available.

Ottoman delivers professional, contoured foot and calf massage

ncrease circulation and reduce swelling including soles of feet, front of calves and calf muscles.

Pressure is applied to the sides and backs of the legs and is then applied to each of the points on the calves. This allows the calves to be relaxed in a rhythmic manner. The calves are slowly squeezed from the bottom up.

The ottoman moves up and down 20-degree increments at various moments during the massage, stretching your hips and thighs. You can turn the stretch function on and off at any time, by using the leg stretch button located on the bottom left side of the remote.

Luxury at its finest Feel the soft, plush fabric against your skin as you

Feel the soft, plush fabric against your skin as you enjoy an incredibly realistic and personal massage that pampers your body and soothes your soul.

High-quality ultra-plush synthetic softer than leather for a truly stimulating sensation Sleek, modern design makes for an attractive addition to any room. 2 colours black or warm grey

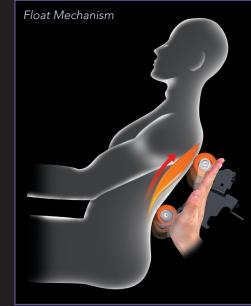

Real Pro Elite Highlights

Incorporating both the gentle techniques of $Swedish\ massage$ and the deep-tissue massage style of Shiatsu, the Real Pro Elite lounger

offers Swede-Atsu massage technology, in addition to 11 individual massage techniques.

In order to recreate the movements of a professional massage therapist, the float mechanism was designed for astonishingly accurate simulation of smooth, wrist-pivot movement.

The Panasonic Real Pro Elite massage covers the largest area of the body-total $188\ square\ inches$ - including neck, shoulders, back and lower back... more than any other massage lounger in its class. The massage

heads can travel a total of 30 inches along the back, from top to bottom, and can move 8 inches from side to side. Massage heads can protrude up to 4 inches for maximum intensity.

Panasonic Real Pro Elite

Quick Program:

5-minute pre-programmed massage.

Self Program: Create and save your own personalized massage program.

Easy-to-Use Remote with Voice Guide and LED Screen

Programmed Operation:

Pre-programmed for your convenience; these four buttons each deliver a very different 14-minute massage. Choose the one that your body craves and enjoy.

User: Select one in order to save the changes you make to a massage program. Six different massage programs can be saved per user.

Leg Stretch/Vibration: Stretching of the legs (during which the ottoman squeezes your legs and then declines, stretching out your hamstrings) and back vibration can be toggled on and off at any point during your massage with these buttons

Intensity Adjustment: Use these buttons to increase or decrease the amount of pressure being applied during your massage.

 Ottoman: Adjusts the leg rest independently of the chair.

Reclining: Adjusts the angle of the headrest and leg rest. Recline almost perfectly flat – up to an incredible 170°!

Timer: Remote also features a convenient timer, which lets you know how much time is left of your massage.

Voice: Use this button to adjust the volume of the voice guide, and to turn it on or off.

Focus: When the massage feels particularly good, you can press this button to ensure that the same massage action repeats frequently during your programmed massage.

Neck/Back Roller Position: Use this pad to make on-the-fly adjustments to the location and lateral movement of the massage heads during a program, and to adjust the massage position on your shoulders.
