EPMAJ7K

OUR DNA

# Panasonic

Introducing the **Real Pro Ultra Prestige Massage Experience by Panasonic.**

The perfect marriage of luxury design and powerful, yet intuitive massage techniques. The **EPMAJ7K** is designed to help you achieve therapeutic muscle relaxation and increased blood flow throughout your body to promote good health. Our newly developed Lower Back & Glute massage program was created to specifically target and help alleviate the effects of lower back pain.

Our unique 3D Massage System is comprised of 3 collaborative elements; Thermal Massage Technology, Professional Massage Techniques and Professional Stretching Techniques, which work in concert to produce a professional quality massage experience. Experience the freedom of daily personalized massage therapy in the comfort of your own home.

Experts in massage therapy since 1936  
**80 Years of Development & Discovery**

MASSAGE ELEMENTS

## 3D Massage Elements

Thermal  
Massage  
Technology

Professional  
Stretching  
Techniques

Professional  
Massage  
Techniques

Enjoy a professional massage  
in the comfort of your own home.

**Panasonic's latest 3D Massage System simulates the warm, soothing hands of a professional masseuse.**

### Our Unique 3D Massage System

uses a high performance brush-less motor and allows the rollers to move up and down, left to right and front to back.

### Our Automatic Intensity Sensor

intelligently adjusts applied pressure for maximum comfort.

### Our Intuitive Micro Processor

allows for excellent responsiveness to replicate intricate Shiatsu techniques.

### Our High Speed Digital Control

accurately replicates multiple professional massage techniques.

## JUNETSU HEATED MASSAGE

The healing power of heat.

Relax, and revive your body with a heated massage.

The calming strokes of a masseur's warm, skillful hands are replicated by our high performance, built-in thermal massage rollers. These skillful movements help ease swelling and relieve overall tension.

### Junetsu Massage

Panasonic's Exclusive Junetsu Technique specifically targets acupoints found in the back and neck with a deeply invigorating circular motion designed to energize tired muscles.

### Shiatsu Heated Body Massage

Our unique 3D massage system replicates intricate Shiatsu Massage techniques by applying heat and pressure to targeted acupuncture points to promote total body relaxation.

### NEW! Foot Roller Massage Technology

Massage rollers activate the arch of the foot to alleviate stiffness and use the soothing pressure of nodules to loosen the ball of the foot, while alternating airbags apply gentle pressure for maximum relaxation.

## NEW! LOWER BACK & GLUTES

### NEW! Lower Back & Glute Massage

Targeted therapy to help relieve lower back pain, stiffness and tension

The lower lumbar and glute muscles work together to support the spine and lower back. The **EPMAJ7K** features new targeted massage programs specifically designed to relieve tension in the lumbar and glute regions, to help provide relief from persistent back pain.

Choose from a wide range of customized options ready to address your specific needs. For a more intense massage experience, raise the ottoman up to a comfortable position.

**NEW!** SHIATSU FOOT ROLLERS

From your head to your feet  
Relieve Tired Feet with our **NEW** Luxury Foot Massage Program

**NEW!**

**Foot Roller Massage Technology**

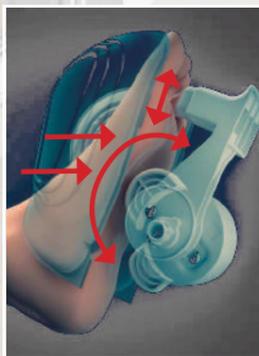

The **EPMAJ7K's** innovative foot massage technology activates the arch of the foot with a firm rolling motion, smoothing away tension and fatigue and bringing relief to sore arches.

**Shiatsu Foot Massage**

The targeted pressure of massage nodules help activate acupoints in the feet to loosen the ball of the foot, while alternating airbags apply gentle pressure for maximum relaxation.

**Invigorating Airbag Massage**

The **EPMAJ7K** massaging ottoman features both calf and foot airbag systems to help enhance the massage experience by temporarily increasing blood flow for an energizing feeling.

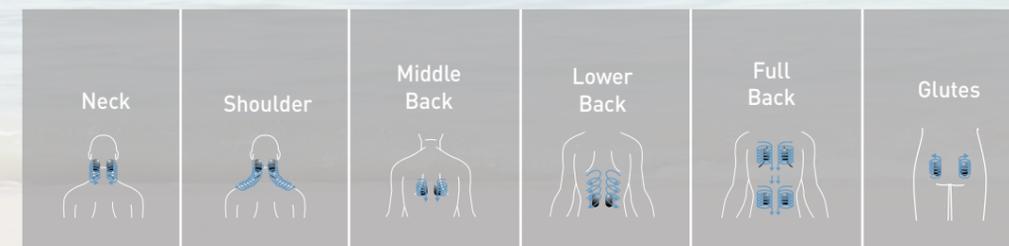

**NEW!** SPIRAL KNEAD MASSAGE

**NEW!** Spiral Knead Massage  
Innovative **Spiral Kneading Massage Technique**,  
a **Panasonic EPMAJ7K Exclusive Feature**

The **EPMAJ7K's** state-of-the-art thumb-like massage rollers relieve and loosen tight muscles and knots by executing a new spiral kneading technique delivering an intense yet comfortable graduated circular motion that invigorates tired muscles.

**The Personal Touch**

You can design your own personal luxury massage experience with 6 different types of spiral knead programs:

## STRETCH MODE

### **NEW!** Professional Stretching Techniques

#### **Improve Flexibility, Circulation and Reduce Tension**

Our combined 3D massage techniques and full-body airbags stretch deep into the muscle tissue for a powerful, therapeutic stretching massage **with a new focus on the lower back and core.**

#### **Neck, Chest, Pelvis & Leg Stretch Techniques**

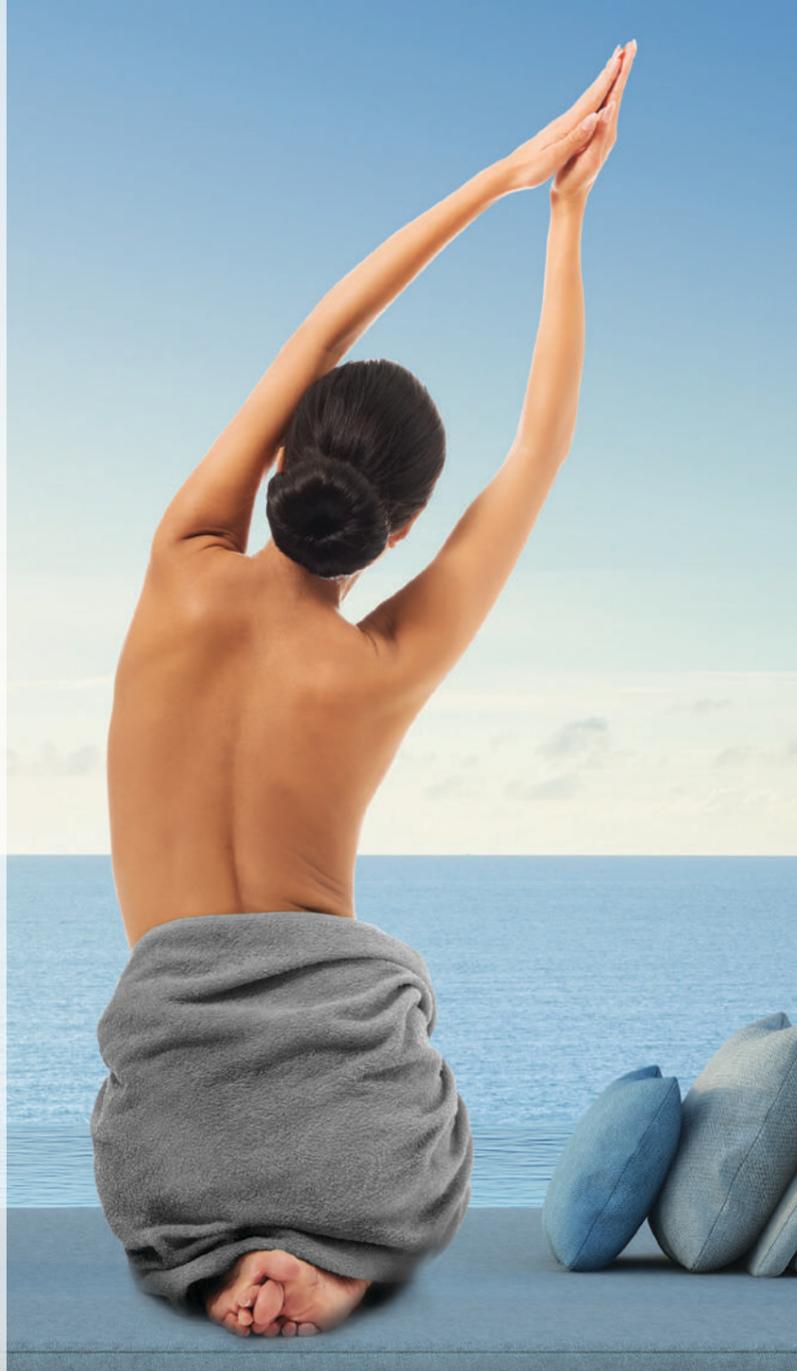

Airbag technology elevates and secures these core areas while rollers gently massage. As the airbags slowly deflate, they create a relaxing stretch along with intermittent kneading for a pleasurable experience.

#### **NEW!** Lower Back Stretch

Airbags inflate to secure and lift the lower body while massage rollers gently push up and stretch the lower back. Air pressure is then reduced in the seated airbags, stretching the surrounding area.

#### **NEW!** Core Stretch

This new feature stretches the muscles of the abdomen, lower back and glutes. These major muscle groups work together to support healthy posture, with the application of heat and stretching – the body relaxes from the core.

## ADDITIONAL FEATURES

### Full Body Air Bag Massage Temporarily Stimulates Blood Flow for Invigorating Energy

#### Features

<b>Armchair Use</b>	Relax in a comfortable, upright, seated position
<b>Flat Recline 170°</b>	170° of control providing custom personal comfort
